T3 TROPIC PRO TECHNOLOGY

Designed for the extremes

Our advanced T3 Compressor is engineered for high-ambient performance, ensuring non-stop cooling even when outside temperatures soar up to 60°C. Whether it's a desert's scorching wind or a humid afternoon, your indoor comfort remains unshaken.

ECO ECO FUNCTION

Smart Savings, Green Living.

Activate the Eco Mode for an ultra-efficient cooling experience. By optimizing the compressor frequency and fan speed, the Midea Eco AC maintains a perfect climate while minimizing your carbon footprint.

SELF-CLEANING

You and your family. Fresh & Healthy!

The indoor unit automatically dries the evaporator after use, preventing the growth of mold and bacteria for fresher, healthier air.

GEAR SHIFT TECHNOLOGY

Precise Cooling, Smart Savings

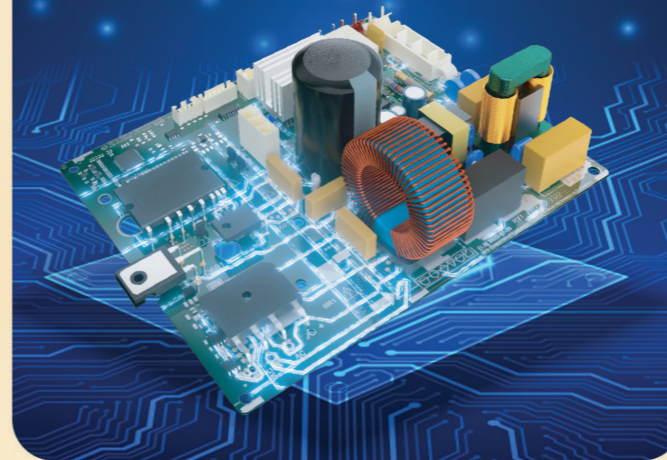

Gear Shift Technology allows you to choose between three levels of power 50%, 75%, and 100%. It's like having a manual transmission for your AC.

WIDE OPERATING VOLTAGE RANGE

Reliable Power for Your Home

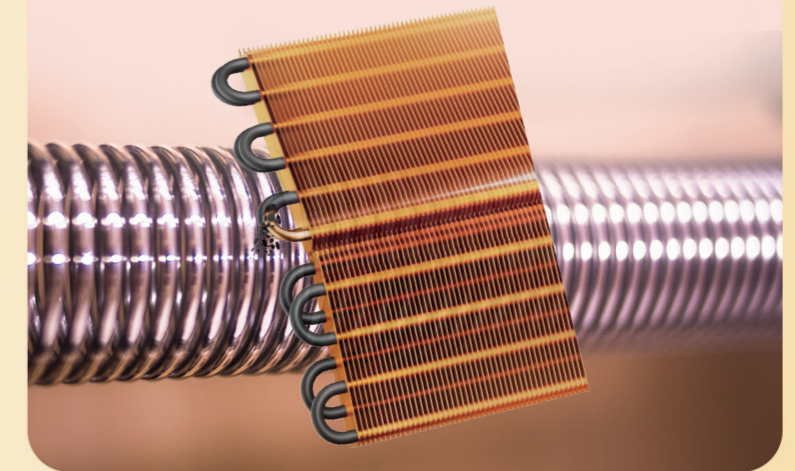

This unit is built to handle unstable power grids, operating smoothly across a Wide Voltage Range to protect your investment against sudden dips or surges.

HYPER GRAPHENE COATING

Built Tough to Stay Fresh Long term

The outdoor unit's coils are shielded with a Hyper Graphene Coating, providing superior corrosion resistance. This advanced layer ensures a longer lifespan and better heat transfer efficiency compared to non-coated coils.

AUTO DEDUSTING

Self-Cleaning for Total Freshness

The outdoor fan reverses its rotation to blow away dust and debris, preventing clogs and maintaining peak performance.

LOW NOISE OPERATION

Whisper Quiet Living

Through aerodynamic fan designs and a high-grade compressor jacket, the unit operates at a whisper-quiet decibel level.
